Experience Summary:

Software Developer with 2 years 9 months of experience in Java application development with Spring framework and Spring reactive framework in the industry of telecom and e-commerce.

Skill set:

Java8, Spring Boot, Spring WebFlux, Git, Postman

Experience:

Tata Consultancy Services - System Engineer – 2 years 9 months.

Projects 1:

Title: BSNL (Telecommunication Domain)

Role: Developer

Duration: 1 year

Model: Agile

Description: The project maintains an OSS tool for order management, Network Inventory management, Network operations

Responsibilities:

- Worked on the enhancement of the Integration layer which acts as a bridge between Clarity (OSS tool) and the Inventory databases and other systems.
- Used Java code to develop backend code for FTTH (Fiber To The Home) operations.
- Developing readable & reusable code for different modules using Java and SQL at backend by understanding the client's requirements.
- Handling and resolving production issues on time.
- Giving technical and functional sessions to new joiners.
- Updating daily status to supervisors.

Projects 2:

Title: Verizon (Telecommunication & E-commerce Domain)

Role: Developer

Duration: 1 year 6 months

Model: Agile

Description: Verizon is a network service provider that sells telecom-related devices and has the facility to trade the old devices for buying new devices or getting money.

Responsibilities:

- Developed backend code using Java, SpringBoot, Spring webflux for a trade-in platform.
- Used reactive programming to make the application reactive and responsive.
- Testing the code and APIs using Postman.
- Participating in User Story creation and backlog refinement and grooming calls.
- Used JIRA for user story, defects, tasks tracking.
- Got exposer to the Redis database, Git CI/CD, Docker containers.
- Directly interacting and working along with VERIZON clients (offshore & onshore) on daily basis.

Achievements:

I received "On The Spot Award" and "Applause Award" for my contribution to the BSNL project.

Education:

Degree/ Examination	Institute/ University/ Board	Year of Passing	Percentage
M.Tech (CAD/CAM)	JNTU Kakinada	2017	70.47
B.Tech (Mechanical)	RGUKT-NUZIVID	2014	74.20
PUC (M.Bi.P.C)	RGUKT-NUZIVID	2010	83.00
X Class	Board of Secondary Education, Andhra Pradesh	2008	80.83

Personal Details:

Father Name: Bhaskar Rao

Date of Birth: 30-08-1993

Languages: Telugu, Oriya, English.

Address: 19, SC Street, Siddigam, Mandasa, Srikakulam, Andhra Pradesh – 532242.

Declaration:

I hereby declare the details furnished in the resume are true and correct to the best of my knowledge.
